## NEW Spyder Skeleton™ Jig Saw Blades

**Innovative jig saw blades that cut 100% straight with less friction**

Using patented laser technology, Spyder's new Skeleton jig saw blades feature parallel-cut, gill-shaped notches that are designed to dissipate frictional heat. This unique blade shape also creates a rectangular channel, allowing for highly precise cuts while maintaining superior blade durability.

- Patent pending
- Manufactured in Germany
- Offered in 10 TPI and 12 TPI
- 6 SKUs available

**WOODWORKING, MULTI-SURFACE AND COMBO PACKS AVAILABLE IN BOTH T-SHANK AND U-SHANK.**
